These New Dresses

Are Having a
Popularity Run—Hard to say which of the many
styles shown in this one-price line is
in the lead. Some of the new mod-
els are of taffeta and Georgette
combinations, made in straight
style, finished with one of the new
style Egyptian girdles. Other styles
are of crepe meteor and crepe de
chine, long line effects; also dresses
of wool jersey, serge, sport or outing
dresses of shantung, pongee and other
materials. One of the combina-
tion styles is of Georgette and taff-
eta and is made in the popular
puffed hip pocket effect; some are
made up over heavy quality Jap silk
linings.

"THE BUSY CORNER"
S. Kann Sons & Co.
8TH ST. AND PENNA. AVE.LIST OF THINGS RED
CROSS URGENTLY NEEDSDoctors, Nurses and All Manner of
Hospital Supplies Are
Called For.What does the Red Cross most ur-
gently need? Henry P. Davidson, chair-
man of the Red Cross war council, has
supplied a list showing the scope and
immensity of the work that the Amer-
ican Red Cross has undertaken, which
includes fifty new motor ambulance
sections, a personnel of 5,000 nurses and
as many more stretcher bearers, and ten
additional hospital units.
The list was prepared by the Paris office
of the Red Cross, and is being distrib-
uted to the American Red Cross, which
has been distributing the American relief
funds, after conference with the ministry
and army medical authorities of France.
These needs in the order of urgency are
as follows:

List of Urgent Needs.

Transport.—In addition to the French
and foreign ambulance transport sec-
tions already now attached to the army
and which we hope to replace, they ur-
gently require fifty new motor ambu-
lance sections of twenty-two Ford
cars, plus two White trucks each and
the men to drive them.
Five sanitary (Red Cross) trains and
the corresponding staff of doctors and
nurses. The cars for these trains would
be turned over to us by the government
and we would transform them in the
manner desired within say two months
at a total cost of approximately 500,000
francs.
Two hundred trucks to replace some of
the complimentary surgical trailers,
details of which could be sent later.
Three hundred two-wheeled horse car-
riages for the transport of wounded,
where motor ambulances cannot be
used. These carriages would be secured
here for you at an approximate cost of
1,100 francs apiece.
One thousand wheelbarrows with rub-
ber tires for carrying stretchers in the
clearing hospitals. These can be se-
cured also at a cost of about 150 francs
each.
Two thousand tents with double sides,
weighing about 200 kilos each for the
sheltering of twenty to thirty wounded
in clearing hospitals.
One thousand tents of a larger model,
also with double sides capable of hold-
ing 120 beds.
Forty thousand to 100,000 cases of
condensed milk.
Several thousands oxygen bottles,
specifications of which could be sent
later.
Drugs as follows:
Ten thousand kilos quinine (hydro-
chlorate or sulphate).
Thirty thousand kilos cod liver oil.
One thousand kilos gualacol.
One thousand kilos peruvian.
Two thousand kilos cade oil.
Two thousand kilos balsam naph-
tol.
Three thousand kilos salicylic acid.
Five thousand kilos urethane (ethyl
carbonate).
One thousand kilos methylene blue.Blankets and Clothing.
Two hundred thousand blankets two
meters fifty by two meters, each for
thirty thousand woolen pea jackets.
Thirty thousand pairs of woolen
trousers.
Four hundred thousand pairs of wool-
en socks.
Ten thousand sanitary soap balls.
